

Bug Reporting

TICKET ID:	TICKET-001
Status:	Open
Reporter:	Ádám Mészáros
Responsible team: (Server, Client, DevOps)	Client
Assigned developer	TBD
QA owner	Ádám Mészáros
Title:	Duplicate products can be added to the same saved list.
Description:	The same product can be added to the "Shopping List" multiple times, resulting in duplicate entries.
Severity:	Medium
Priority:	Medium
Platform (Browser/ OS/ Device)	Desktop / macOS / Chrome 140
Environment:	Production
Version:	3.7.2
Test Case ID:	TC-002
Precondition	User is logged in. User has created a saved list named “Shopping List” The "Shopping List" is initially empty.
Steps to Reproduce:	1. Navigate to the ALDI US homepage. 2. Select a product category from the left-side menu. 3. Select an available product. 4. Click "Add to saved list”. 5. Select the list named "Shopping List”. 6. Click "Save to list”. 7. Click Back to return to the previous page. 8. Select the same product as in step 3 9. Click "Add to saved list”. 10. Make sure “Shopping List is selected. 11. Click "Save to list”. 12. Click Back to return to the previous page. 13. Click the user icon. 14. Select "Your saved list”.
Expected Result:	The product should be displayed only once in "Shopping List". The application should prevent the same product from being added to the list more than once.
Actual Result:	The same product is displayed twice in "Shopping List", indicating that duplicate products can be added to the same saved list.
